

## Listing of the Claims

1-4. (Canceled).

5. (Previously Presented) A compound having Formula 119:

119

wherein X comprises a short interfering RNA (siRNA) molecule; W comprises a linker molecule or chemical linkage that can be present or absent, each R<sub>7</sub> independently comprises an acyl group that can be present or absent, and each n is independently an integer from about 1 to about 20.

6. (Previously Presented) A compound having Formula 121:

121

wherein X comprises a short interfering RNA (siRNA) molecule; W comprises a linker molecule or chemical linkage that can be present or absent, each R<sub>7</sub> independently

comprises an acyl group that can be present or absent, and each n is independently an integer from about 1 to about 20.

7-14. (Canceled).

15. (Original) The compound of claim 5, wherein W comprises a linker molecule or chemical linkage selected from the group consisting of amide, phosphate, phosphate ester, phosphoramidate, or thiophosphate ester linkage.

16. (Original) The compound of claim 6, wherein W comprises a linker molecule or chemical linkage selected from the group consisting of amide, phosphate, phosphate ester, phosphoramidate, or thiophosphate ester linkage.

17-19. (Canceled).

20. (Previously Presented) The compound of claim 10, wherein said siNA molecule comprises a sense strand and an antisense strand, and wherein said sense strand is conjugated with a compound comprising Formula 119.

21. (Previously Presented) The compound of claim 11, wherein said siNA molecule comprises a sense strand and an antisense strand, and wherein said sense strand is conjugated with a compound comprising Formula 121.
